Invite

Water Stories
Community Connection
 Connecting and tapping into water webs around Cape Town
 Wrap up the week feeling inspired!
 RSVP to receive details
 Friday 1 July 2022 at 15.00-17.00 on Zoom
 You are invited to an online mixer to share your water stories, work, inspirations and ideas, as we collectively imagine a sustainable and clean wetland city.
 A mix of short presentations on water from all angles from the creative, scientific, academic, activist and governance community in Cape Town, with collaborative harvesting to generate a shared resource for the collective, with concrete steps towards citywide actions to support the water sector we want.

Jam Boards

What is your water story?
 I am a design educator with a passion for sharing stories and information about our environment to communities to creatively tell water stories, creating and the water community with an aim of restoring life.
 Water stories is a journal for sharing stories and information about our environment, it's a joint effort from academics, creatives and the wider community with an aim of restoring life.
 I am a student and my research is looking at diverse ways of understanding the vital and interconnected work that wetlands and water do near and far. I never meant to focus on water - and research resources.
 I work on the relationships between armed violence & water scarcity
 I am a Marine biologist, it is my world!

Water WE ARE SORRY
 We have excellent environmental laws, the challenge is getting the understanding and support that they are intended for.
 I am the PI on the Norwegian side for the SANOCAN project.
 Growing up the daughter of a wetland ecologist and a water scientist the vital and interconnected work that wetlands and water do near and far. I never meant to focus on water - and research resources.
 I work on the relationships between armed violence & water scarcity
 I am a Marine biologist, it is my world!

Four Agreements
 Be impeccable with your word
 Don't take anything personally
 Don't make assumptions
 Always do your best
